

Echo Series® Antenna

2400 to 2483 MHz Operation

Features

- 14 dBi Antenna Gain
- Aesthetic design for high-end CPE installations
- Pole mount or surface mount
- Full tilt and rotation adjustments
- Vertical or Horizontal Polarization
- Type N Female Connector
- Optimized for 2.4GHz ISM Band
- Rugged, Lightweight and Waterproof

*Picture shown with standard pole mount bracket

Applications

- 2.4 GHz ISM Band Applications
- Point to Multi-point Systems
- Wireless Broadband Systems
- Wireless Internet Access
- Wireless Networks
- Building to building high speed links

Description

The Echo Series® antenna system offered by Pacific Wireless is constructed of aluminum alloy with powder-coat painted finish. They come standard with an integral N Female connector and heavy duty U-bolt bracket. A cone mount bracket is also available for surface installations. The Echo Series® antenna can be used in a wide variety of wireless systems. Its superior front to back performance minimizes external interference coming from behind the unit which makes it desirable for high density antenna installations or installations where the installer wants to minimize interference.

Specifications

Parameter	Model	Min	Typ	Max	Units
<i>Frequency Range</i>	PAWES24-14	2400		2483	MHz
<i>Input Return Loss (S₁₁)</i>			-14		dB
<i>VSWR</i>			1.5:1		
<i>Impedance</i>			50		OHM
<i>Input Power</i>			50		W
<i>Pole Diameter (OD)</i>		1 25		2 51	inch mm
<i>Operating Temperature</i>		-45		+70	Deg C

*Note: Pacific Wireless does not supply the mounting pole or coax cable.

Wind Loading
